Title: Business WordPress Themes

Business WordPress themes provide users a way to have a virtual, professional design for their company or organization. It provides them with the opportunity to showcase their business by displaying important contact information, feature the products or services they offer on the front page, and engage their customers with a blog and other social sharing features.

To start, the *Tower* theme provides a great chance for businesses and organization to represent their products and services with a clean-cut and appropriate aesthetic design quality. There is no limit to what can be achieved with *Tower*. Every conceivable tool will be available as will the offer to upgrade the page's capabilities. In the online world, success is often measured by a high view count. To attract more people to a business or organization's content, a multi-lingual format should be considered. Foreign followers will certainly appreciate the consideration.

There are many interesting options for customization for *Tower* including Four Icon Font Packets and the Megamenu feature. Only committed fans will be willing to browse previous posts, and the best content might be buried under more current posts. Thankfully, *Tower* has sections that can shine a spotlight on the best work: multimedia slides. These slides have the ability to showcase multiple content formats, giving businesses and organizations confidence that no visitor will ever miss the most well-written articles. *Tower* has one-click demos, along with 30 incredible portfolio layouts. A live *Tower* demo is available online if a user wishes to sample *Tower* and preview the outstanding, professional features it offers.

The *Corpus* theme, a serious, professional, polished, dynamic, and technologically accomplished WordPress responsive multipurpose theme, is built with the core values of power, flexibility, and weightlessness. *Corpus'* quintessence is a theme that is as modest as it is refined, as lovely as it is practical, and as flexible as it is effective. Corporate users will appreciate the finished, professional-designed layouts and schemes of *Corpus* that lend themselves both well to serious businesslike use as well as thorough, conscientious personalized branding of preexisting brand identities.

As an easy and intuitive theme, powered by WPBakery's Visual Composer and the Redux framework (as well as dozens of powerful shortcodes that will save hours of developer manpower) *Corpus* includes a plethora of carefully crafted templates that are ready for corporate news blog deployment. *Corpus* is very mobile, touch friendly, and natively search engine optimized and has remarkably fast loading (which means it's easy on your server loads and bills, in addition to making use of minimalistic HTML5 and CSS3 coding as well as cutting edge LESS coding). The incredible interaction of *Corpus* comes from Parallax effects, smooth animations, and interactive sliders and bars. *Corpus* is a theme that means business, attracts business, and seals the deal.

The next theme brings a creatively endowed and technologically capable and competent, very polished and professional, fresh-faced and bright, colorful and high customizable, clean and crisp, aesthetically minimal and easily adaptable, user friendly and very

intuitive, wonderfully responsive WordPress multipurpose business website. This theme is *Polygon*. *Polygon* is astoundingly effective, remarkably thorough and an ambitious solution for business webmasters seeking to create handsome, functional and modern websites that are capable of handling small or large scale traffic loads with equally flawless disposition.

Complete with powerhouse tools, templates, widgets, shortcodes, and plugins, *Polygon* is utterly capable of enabling webmasters (with or without any previous coding experience) to nimbly and efficiently craft unique, distinct, and very personalized business websites with all kinds of effective, deep-running features and functions exclusively created for business environments (such as WoodCommerce integration out of the box, WooThemes Projects integration, the powerful Widget Logic plugin, Essential Grid layout plugin, Slider Revolution and Contact Form 6) Premium plugins are packaged into *Polygon* for convenience as is a smoothly visual style to match the *Polygon* website immediately. Within an hour of the uncomplicated, one-click installation and demo importation process of *Polygon*, products and services will be marketed right from a brand new and unique website for businesses and organizations alike.

The *Harvard* theme is a universal WordPress theme which is compatible with any number or types of businesses. Different websites can be created with this theme; everything from a creative agency, corporation, online store, blog, personal portfolio, CV card, to a landing page, *Harvard* offers a 35+ fully equipped template version which can be easily loaded by just one-click after WordPress and the *Harvard* theme are installed. Start with the demo content as it's much easier to modify already created demo content than starting from scratch. *Harvard* comes with many premium plugins which are completely free of charge. It's revolution slider, visual composer and master slider will be appreciated (and more likely than not, visual composer the most).

These tools are used to create and modify page content by a simple drag and drop function, allowing the page elements to be laid out in sections. The *Harvard* theme is full of other features that will be useful for a business website, such as, 100% responsivity, unlimited colors, 600+ Google fonts, 11 pre-designed headers, SEO optimization, translations ready, animations, custom CSS & JS, 1,800+ fonts, ajax login, customer google maps, etc. It is very easy to work with the *Harvard* theme and no professional skills or experience are required. Step-by-step documentation is available and the author is available for contact on the support forum. The *Harvard* theme comes with lifetime updates which means that all improvements and bugs will be fixed at no cost. Check it out and experience the amazing business solution that is *Harvard*.
