- **Promoting and Marketing: Jazz Trumpeter, Solomon Sessions**

Did you know that St. Paul's original name was "Pig's Eye?" Did you know that famous jazz artist Louis Nelson Delisle's nickname was "Big-Eye"? Do you know that artists, like myself, sometimes need to be a ham just so we can bring home the bacon? Ok, ok. I'll stop.

But writers oftentimes create improvisational text just as musicians play improvisational notes. And the jazz performances at our theatre are no different – especially when those performances are by none other than Jazz Trumpeter Solomon Sessions.

Solomon plays before an audience with fun, rhythmic urgency and inventive expression as only jazz music can have. The sensational experience he offers is as unique as the original name of the city in which he'll perform! It's as special as the nickname of the famous jazz artist who precedes him! So come to the theatre for the thrilling musical event with Solomon Sessions! It will deliver stimulating sensations of excitement, exhilaration, and enjoyment that you don't want to miss!
